WHO WE ARE ?

Introduction

Rentas Health

Rentas Health Sdn Bhd (1322484-P) specialises in management consulting, business development and marketing communications in the healthcare and technology sector. Our comprehensive partnership with Health Insights aims to revolutionise healthcare information management for hundreds of medical caregivers and centers across the nation.

With the advent of Covid-19 which has spread across Malaysia, the management team of Rentas Health has identified the importance of using RT-PCR Detection kits, which is the Gold Standard amongst Covid-19 test kits due to its sensitivity and specificity. In addition, to test kits, Rentas Health also expanded into PPE, with a focus on mask distribution.

Pecca Group

Pecca Leather Sdn Bhd (“PLSB”) is an operating subsidiary of Pecca Group Berhad – which is a public listed company on Malaysian Stock Exchange (BURSA).

While our principal business activities started off with the automotive seat covers leather upholstery business, today PLSB has expanded its business into other segment using its manufacturing capabilities such as aviation and healthcare personal protective equipment (PPE) which includes face masks, face shields and PPE garments. PLSB has invested in machineries and clean room facilities to produce high quality PPE products and is registered with Medical Device Authority (MDA) of Malaysia for the establishment license to commence the sale of PPE products. In addition, PLSB also obtained the certification from the U.S. Food and Drug Administration (FDA) and the EU’s CE marking.

MASK CERTIFICATION

A close-up photograph of a hand holding a wooden stamp, poised to stamp a document. The stamp is a simple wooden block with a handle. Below it is a rectangular ink pad with a dark, textured surface. The background is blurred, showing a desk with a blue folder and other papers. The overall lighting is warm and soft.

ISO CERTIFICATE

Mask Certification

Why ISO so important?

ISO 13485 ensures that manufacturers continue to design, develop, produce, install and deliver safely and in compliance with relevant regulatory requirements and the intended purpose of medical devices.

ISO 13485:2016 is the standard for a Quality Management System ("QMS") for the design and manufacture of Medical Devices.

GDPMD CERTIFICATE

Mask Certification

Why GDPMD so important?

The objective of GDPMD is to ensure the quality, safety and performance of medical devices which include but are not limited to product sourcing and procurement; transportation and delivery; storage; installation, commissioning, service and maintenance, calibration and after sales service; tracking, documentation and record-keeping practices.

MDA CERTIFICATE

Mask Certification

Why MDA so important?

For the purpose of placing a medical device in the market: the manufacturer, Authorised Representative of foreign manufacturer, importer and distributor shall establish, maintain and implement appropriate quality management system that is commensurate with the role and function of the establishment.

Under the Medical Device Act (Act 737) and the Medical Device Authority Act 2012 (Act 738) all medical devices manufactured, imported, or distributed in Malaysia require a registration.

The Medical Device Authority (MDA) is a division of the Ministry of Health Malaysia (MOH) in charge of regulating medical device and its industry players in Malaysia.

FDA CERTIFICATE

Mask Certification

Why FDA so important?

The Food and Drug Administration is responsible for advancing the public health by helping to speed innovations that make medical products more effective, safer, and more affordable and by helping the public get the accurate, science-based information they need to use medical products and foods to maintain and improve their health.

CE CERTIFICATE

Mask Certification

Why CE so important?

CE marking is an important procedure that guarantees a product's conformity to EU regulations. Manufacturers, importers and distributors of non-food products are obliged to provide the CE marking if they want to trade in EU/EAA markets.

Selling products without the CE mark is an economic offence that is punished differently by each Member State of the European Union. Affixing CE marking on products that do not require the CE can also lead to penalties.
